PERSONAL PROJECTS

Fitness Tracker
- Fitness tracker has a login and register option on main page which takes you to the login and register page. The Register page is for the first time user to register his/her data in gym and start working out post it.Once the user register he/she needs to sign in as a user to continue to the routine/activity page.

Virtual Typewriter
- A typewriter is a mechanical device to produce printed characters on a piece of paper by typing individual keys. Introduced in the 1870s, they become widely used for business communications up until the rise of modern day personal computers in the 1980s. I designed an on-screen modern Typewriter.
